Investor Presentation

August 2015
By attending the meeting where this presentation is made, or by reading the presentation materials, you agree to be bound by the following limitations:

The information in this presentation has been prepared by Bharti Infratel Limited (the "Company") for use in presentations by the Company at investor meetings and does not constitute a recommendation regarding the securities of the Company.

No representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information, or opinions contained herein. Neither the Company nor any of its advisors or representatives shall have any responsibility or liability whatsoever (for negligence or otherwise) for any loss howsoever arising from any use of this presentation or its contents or otherwise arising in connection with this presentation. The information set out herein may be subject to updating, completion, revision, verification and amendment and such information may change materially. Neither the Company nor any of its advisors or representatives is under any obligation to update or keep current the information contained herein.

The information communicated in this presentation contains certain statements that are or may be forward looking. These statements typically contain words such as "will", "expects" and "anticipates" and words of similar import. By their nature forward looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. Any investment in securities issued by the Company will also involve certain risks. There may be additional material risks that are currently not considered to be material or of which the Company and its advisors or representatives are unaware. Against the background of these uncertainties, readers should not unduly rely on these forward-looking statements. The Company, its advisors and representatives assume no responsibility to update forward-looking statements or to adapt them to future events or developments.

This presentation has been prepared for informational purposes only. This presentation does not constitute a prospectus under the (Indian) Companies Act, 1956 and will not be registered with any registrar of companies. Furthermore, this presentation is not and should not be construed as an offer or a solicitation of an offer to buy securities for sale in the India.

This presentation and the information contained herein does not constitute or form part of any offer for sale or subscription of or solicitation or invitation of any offer to buy or subscribe for any securities of the Company, nor should it or any part of it form the basis of, or be relied on in connection with, any contract or commitment whatsoever. The securities of the Company have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "Securities Act"), and may not be offered, sold or delivered within the United States or to U.S. persons absent from registration under or an applicable exemption from the registration requirements of the United States securities laws. This presentation and the information contained herein is being furnished to you solely for your information and may not be reproduced or redistributed to any other person, in whole or in part. In particular, neither the information contained in this presentation nor any copy hereof may be, directly or indirectly, taken or transmitted into or distributed in the U.S., Canada, Australia, Japan or any other jurisdiction which prohibits the same except in compliance with applicable securities laws. Any failure to comply with this restriction may constitute a violation of the United States or other national securities laws. No money, securities or other consideration is being solicited, and, if sent in response to this presentation or the information contained herein, will not be accepted.

By reviewing this presentation, you are deemed to have represented and agreed that you and any person you represent are either (a) a qualified institutional buyer (within the meaning of Regulation 144A under the Securities Act) and a qualified purchaser (within the meaning of the U.S. Investment Company Act of 1940, as amended), or (b) not a U.S. person (as defined in Regulation S under the Securities Act) and are outside of the United States and not acting for the account or benefit of a U.S. person.
Company Overview
Bharti Infratel – Who We Are?

- A Leading Tower Infrastructure Operator
- Pan India Presence across all 22 Telecommunications Circles
- Indus Towers – JV between Bharti Infratel, Vodafone and Aditya Birla Telecom
- Top 3 Operators – Anchor Customers & Relationships with all other Operators
- Marquee promoter and investors
Performance at a Glance

Performance at a Glance

86,397 towers and 185,215 co-locations\(^{(1)}\)
37,486 towers of Bharti Infratel and 48,911 towers from 42% stake in Indus \(^{(1)}\)

FY15 Consolidated Revenue of US$1,833m
Q1 FY16 Consolidated Revenue of US$474m

FY15 Consolidated EBITDA of US$787m\(^{(2)}\) and Q1 FY16 Consolidated EBITDA of US$205m
FY15 EBITDA Margin\(^{(3)}\) of 42.9% and Q1 FY16 EBITDA Margin of 43.2%

FY15 Profit after Tax of US$313m and Q1 FY16 Profit after Tax of US$90m
FY15 Profit Margin of 17.1\(^{(4)}\)% and Q1 FY16 Profit Margin of 19.1%

Q1 FY16 Net Cash of US$570m

FY15 Consolidated Operating free cash flow\(^{(5)}\) of US$438m and Q1 FY16 consolidated Operating free cash flow of US$123m

Market share in terms of installed tower base, FY15

- Indus: 31.0%
- Bharti Infratel (standalone): 9.6%
- Others: 10.1%
- Viom: 11.3%
- GTL Infra: 8.0%
- RTIL: 11.6%
- BSNL/MTNL: 18.2%

Market share in terms of co-locations, FY15

- Indus: 37.1%
- Bharti Infratel (standalone): 11.6%
- Others: 8.3%
- Viom: 14.8%
- GTL Infra: 6.7%
- RTIL: 11.6%
- BSNL/MTNL: 9.9%

Source for Market Share: Deloitte, March 20125

Exchange Rate Used: US$1 = 63.65 as on 30\(^{th}\) June, 2015
Note: Financials for Bharti Infratel for year ending March 31, 2015 and quarter ending June 30, 2015
\(^{(1)}\)As of June 30, 2015
\(^{(2)}\)Includes pass through costs
\(^{(3)}\)EBITDA for Bharti Infratel has been calculated excluding Other Income
\(^{(4)}\)Profit margin calculated as PAT divided by Rental Revenue & pass through costs
\(^{(5)}\)Calculated as EBITDA less Capex adjusted for RE and LRE
Opportunities for voice growth in rural areas given rural penetration of 47.79%\(^{(1)}\)

3G/4G services to drive data consumption

Given inadequate wire-line infrastructure, wireless services expected to cater to new demand

---

Pan India presence

- Opportunities for voice growth in rural areas given rural penetration of 47.79%\(^{(1)}\)
- 3G/4G services to drive data consumption
- Given inadequate wire-line infrastructure, wireless services expected to cater to new demand

---

In the computation of wireless teledensity, following assumptions have been made:
A. Since only UP state teledensity was available, it was assumed to be the same between UP(E) and UP(W); B. Since teledensity was reported for West Bengal including Kolkata, the same teledensity was assumed for both circles; C. Since teledensity was reported for Maharashtra including Mumbai, the same teledensity was assumed for both circles; D. Delhi includes Ghaziabad, Noida, Gurgaon and Faridabad; E. Operator refers to wireless operators providing service as of 31 Mar 2012; F. No. of SIMs refers to wireless subscribers

Operator Industry Dynamics

Market Concentrated in Hands of Select Players

The Indian market is dominated by the top 3 operators: BIL’s Anchor Tenants

- Bharti Airtel: 30.5%
- Vodafone: 23.2%
- Idea Cellular: 18.2%
- TTSL: 7.1%
- Aircel: 5.7%
- BSNL+MTNL: 5.7%
- Rcom: 6.1%
- Others: 3.5%

Anchor tenants: 71.9% RMS

Non-discriminatory nature
RoFRs from Anchor Operators
All operators are customers

Source: (1) TRAI, for the quarter ended March 31, 2015; Others includes Loop Mobile, Videocon, HFCL, Uninor and Sistema Shyam
Continuing Voice Led Growth

Growth opportunities remain in rural and semi urban voice market

Rural penetration still ~ 47% - significant headroom

Both coverage and capacity requirements to fuel tower and co-location demand

Lower ARPU further necessitate sharing for ensuring operational efficiency

Source: (1) COAI Reported Numbers; (2) COAI Estimates and Ericsson Estimates
An operator agnostic business model, superior network footprint and service quality standards allow Bharti Infratel to capitalize on the growth in the data market.

### Operator Investment in Licenses

- 3G/4G auctions held since 2010 led to significant investments of nearly $50bn by telecom operators.

<table>
<thead>
<tr>

- Most of this spectrum has been acquired for fresh data networks rollout.
- Airtel has implemented 4G data in 35 cities in India, Idea Cellular has reported a 42% y-o-y (as of Q4 FY15) growth in 3G cell sites, both clear indications of intent of telecom operators to spend on developing their data networks.

### Findings from NSN MBIT Index

- 74% growth in mobile data traffic in India between Dec’13 & Dec’14.
- 3G grew threefold & clocked a 114% growth while 2G grew by 41%.
- 3G users consume 3.1 times more data than 2G users.
- Smartphones generate half of all mobile data in India.

Exponential Growth in Data is expected for a long time to come

6-Fold Increase

- Smartphone subscriptions
  - 2014: 130 million
  - 2020: 750 million

4-Fold Increase

- Monthly mobile data traffic per active smartphone
  - 2014: 1 GB
  - 2020: 4.5 GB

22-Fold Increase

- Monthly total smartphone traffic
  - 2014: 115 PB
  - 2020: 2,500 PB

3G and 4G will be the leading technologies in 2020

India Population Coverage by GSM/EDGE, WCDMA/HSPA and LTE technologies

- GSM/EDGE
  - 2014: ~95%
  - 2020: >95%

- WCDMA/HSPA
  - 2014: >35%
  - 2020: ~90%

- LTE
  - 2014: ~10%
  - 2020: ~40%

WCDMA/HSPA coverage will almost triple by 2020

### Phases of Data led Tower Revenue Growth

<table>
<thead>
<tr>
<th>Phase</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>STAGE 1</strong></td>
<td>Loading all the existing 100 sites with 3G BTS</td>
</tr>
<tr>
<td><strong>STAGE 2</strong></td>
<td>Plugging Coverage Gaps by using the available 35 in the system</td>
</tr>
<tr>
<td><strong>STAGE 3</strong></td>
<td>Full Coverage by ordering additional 15 sites to Tower Co.</td>
</tr>
<tr>
<td><strong>STAGE 4</strong></td>
<td>Capacity Site Addition</td>
</tr>
</tbody>
</table>

- Indicative numbers and Coverage Ratios
- Please refer to slide 34 for the Analysys Mason table on Propagation effect of frequencies

Airtel has 100 sites in Delhi Circle (900 + 1800 Mhz) for 2G coverage. Due to Propagation effect, Airtel will need 150 sites on 2100 MHz for 3G. The total towers available with Indus in Delhi is 135.
Business Model Strengths

<table>
<thead>
<tr>
<th>Purpose</th>
<th>Key Feature</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>Disarming The Operators</td>
<td>• It is not economically rewarding for the operators to build new towers themselves</td>
<td>No Operator in India is building towers on their own now</td>
</tr>
</tbody>
</table>
| Create Natural Entry Barrier| • Sliding scale of rent  
• Sharing Energy Cost                         | It is economically unviable to erect a new tower at a location where a tower is already present                                           |
| Volume vs. Value            | • By sharing minimal value gain the model has ensured huge volume of towers, virtually entirely built in the Tower Cos | • Have over 153k towers and >329k tenancies vs. having <30k towers, if there was no growth participation  
• Gives tower company a huge volume play going forward |
Demonstrated Operational and Financial Performance

Y-o-Y Growth: 56.5%

Note: Constant exchange rate of US$ 1 = INR 63.65 as on 30th June 2015 has been used

1. Revenue, EBITDA and Operating Free Cash Flow are excluding Other Income
2. Consolidated figures for Bharti Infratel include 42% economic interest in Indus Towers
3. Only consolidated Rental revenues considered for calculation; excludes pass through costs like energy costs and Other Income.
4. EBITDA for Bharti Infratel has been calculated using revenue less pass through costs and excluding Other Income.
5. Operating Free Cash Flow calculated as EBITDA - Capex; Capex is defined as the additions to the Tangible Assets during the period.
Bharti Infratel is focused on delivering return to its shareholders through multi-pronged strategy

Pursuit of viable value accretive inorganic growth

- Bharti Infratel is focused on identifying opportunities for inorganic growth that are value accretive and feasible
- Bharti Infratel will consider opportunities for tower portfolio acquisitions in Bangladesh and Sri Lanka and from domestic telecom operators

Leverage Diversified Customer Base to Capitalize on Data Growth

- Bharti Infratel stands to benefit from a pick of data growth across the industry, diversification of customer base allows Bharti Infratel to benefit from data growth in the Indian telecom sector, no matter which operator achieves dominance

Robust Dividend Policy - Total Payout Ratio of 92% in FY15*

- Aim to balance growth capital needs and distribution to shareholders
- Target payout to be higher of –
  - 100% Dividends received from Indus, or 60-80% of Bharti Infratel PAT (excluding DDT)

(2) Constant exchange rate of US$ 1 = INR 60.59 has been used
(3) Constant exchange rate of US$1 = INR 60.09 has been used
(4) Constant exchange rate of US$1 = INR 62.5 has been used
(5) Subject to adequate liquidity for planned business activities and capital expenditure and other uses including debt servicing requirements, acquisitions and ensuring an acceptable credit rating

Explore Opportunities to Return Cash to Shareholders

- Aim to increase liquidity of the stock in the market
- Aside from its dividend policy, the company is considering various opportunities to return excess cash to shareholders, subject to clarifications on company law (5)
Note: Constant exchange rate of US$ 1 = INR 63.65 has been used, which is the closing exchange rate as on June 30, 2015
(1) Revenue, EBITDA, Operating Free Cash Flow and AFFO are excluding Other Income
(2) Consolidated figures for Bharti Infratel include 42% economic interest in Indus Towers
(3) Operating Free Cash Flow calculated as EBITDA – Capex; Capex is defined as the additions to the Tangible Assets during the period
(4) Adjusted Fund from operations, AFFO is calculated as EBITDA – Maintenance Capex
Bharti Infratel has institutionalized ‘GreenTowers P7’ programme, aimed at minimizing dependency on diesel consumption and thereby, reducing the carbon footprint.

The ‘GreenTowers P7’ programme is based on seven innovative ideas deploying cleaner energy technologies.

We have adopted a three-pronged strategy to run this programme:

1. **Solar Installations and Diesel Free Towers**
   - Over 2,900 solar powered towers with installed capacity of over 11 MW
   - Over 25,500 towers across the network are diesel-free tower

2. **Improving Energy Efficiency of Towers**
   - Implemented hybrid battery bank solutions in towers across the country
   - Installed variable speed diesel generator (DG) sets in various sites

3. **Reduction of Power Consumption via Free Cooling Units (FCU)**
   - FCUs utilize the outside ambient air for cooling the shelter
Experienced Management Team

Akhil Gupta
Chairman
- Joined Bharti Infratel in March 2008 as Director
- Work experience of 29 years
- Certified Chartered Accountant and fellow member of ICAI. Completed an advanced management program at Harvard Business School.
- Has received various awards including ‘CEO of the Year’ at the National Telecom Awards 2012, and the ‘CA Business Achiever Award’ at the ICAI Awards 2008

Devender Singh Rawat
Managing Director & CEO
- Joined Bharti Infratel in July 2010 as Chief Executive Officer
- Work experience of 25 years
- B.E. (Electronics & Communication)

Pankaj Miglani
Chief Financial Officer
- Joined Bharti Infratel in August 2011 as Chief Financial Officer
- Work experience of 19 years
- Chartered Accountant, certified Cost and Works Accountant and Certified Company Secretary

Biswajit Patnaik
Chief Sales and Marketing Officer
- Joined Bharti Infratel in October 2008 as Chief Sales & Marketing Officer
- Work experience of 21 years
- Bachelors Degree from Behrampur Univ. & Diploma in Sales & Marketing Management from National Institute of Sales

Dhananjay Joshi
Chief Operations Officer
- Joined Bharti Infratel in February 2014
- Work experience of 27 years
- Bachelors Degree in Electronics & telecommunications Engineering from Mysore University (India)

The top management has an average experience of over 20 years in various sectors including telecom
Best Employer Award 2015
- Aon Hewitt released the list and Bharti Infratel is one of the 11 best Employers in India, also received a special category award for “Commitment to Engagement”

National Quality Excellence Award 2015
- World Quality Congress conferred this award for Best Business Process Excellence Program and Lean Six Sigma Program

Top Risk Management Award 2015
- ICICI Lombard & CNBC TV18 conferred upon Bharti Infratel the Award under Infrastructure Category

Global Business Excellence Award-2014
- Bharti Infratel has been conferred with ‘Global Business Excellence Award’ for Outstanding Business category.

Green Mobile Award 2011
- Bharti Infratel bagged the award at the GSMA Annual Global Mobile Awards which is one of the most prestigious awards in the industry.

Corporate Responsibility

1) Green Towers Program
   - GreenTowers P7 program
   - Comprehensive energy management plan
   - Aimed at using alternative, renewable and energy efficient technologies
   - "Go Green" Initiative

2) Provide free children education in rural India through Satya Bharti School Program

3) Sanitation initiatives in partnership with Bharti Foundation as part of ‘Clean India Campaign’

4) Provide relief material to disaster hit families in J&K through Oxfam India and contribution to PM’s Relief Fund
Company Strategy

Promote Tower Sharing

Organic Growth and Acquisition Opportunities

Capitalize on the Rollout of New Technologies and Data Services

Achieving Cost Efficiencies Across Tower Portfolios

Increasing Revenue and Capital Productivity
Investment Thesis

- Demonstrated Operational and Financial Performance
- Insulated from Major Concerns - $-Re, Leverage, Import Dependence
- Continuing Voice led Growth
- Experienced Management Team
- Operator Agnostic way to benefit from Data Growth
- High Standards of Corporate Governance
- Regulatory Environment Favorable
Bharti Infratel Overview

Corporate Structure

Together with Indus Towers, Bharti Infratel is a leading tower company in India

(1) Public includes the PE as well as IPO investors
(2) As at June 30, 2015: No. of towers for Bharti Infratel is consolidated including 42% stake in Indus Towers
(3) Ranking as per India revenue market share for the quarter ended March 31, 2015 (Source: TRAI)
(4) Based on tower count (Source: Deloitte); Bharti Infratel is #2 tower company including proportionate towers based on 42% economic interest in Indus; Bharti Infratel standalone has 37,486 towers as of June 2015
Impact of Data Growth on Tower Industry

- Expansion of 3G / 4G Networks by Operators will necessitate demand for towers
- Propagation on higher frequency band weaker
  - Data usage to drive co-location growth
  - 3G/4G only sites to drive tower demand

### Propagation effects in different bands

### Regulatory Environment Favourable

The Cabinet Committee on Infrastructure has included “Telecommunication towers” as a infrastructure sub-sector in the master list.

DoT has issued guidelines for installation of Mobile Towers – Bringing Standardization.
