Kindly take the same on record.

Thanking you,

Sincerely Yours

For Bharti Infratel Limited

Shweta Girotra
Company Secretary

Encl: As above
By attending the meeting where this presentation is made, or by reading the presentation materials, you agree to be bound by the following limitations:

The information in this presentation has been prepared by Bharti Infratel Limited (the “Company”) for use in presentations by the Company at investor meetings and does not constitute a recommendation regarding the securities of the Company.

No representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information, or opinions contained herein. Neither the Company nor any of its advisors or representatives shall have any responsibility or liability whatsoever (for negligence or otherwise) for any loss howsoever arising from any use of this presentation or its contents or otherwise arising in connection with this presentation. The information set out herein may be subject to updating, completion, revision, verification and amendment and such information may change materially. Neither the Company nor any of its advisors or representatives is under any obligation to update or keep current the information contained herein.

The information communicated in this presentation contains certain statements that are or may be forward looking. These statements typically contain words such as "will", "expects" and "anticipates" and words of similar import. By their nature forward looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. Any investment in securities issued by the Company will also involve certain risks. There may be additional material risks that are currently not considered to be material or of which the Company and its advisors or representatives are unaware. Against the background of these uncertainties, readers should not unduly rely on these forward-looking statements. The Company, its advisors and representatives assume no responsibility to update forward-looking statements or to adapt them to future events or developments.

This presentation has been prepared for informational purposes only. This presentation does not constitute a prospectus under the (Indian) Companies Act, 1956 and will not be registered with any registrar of companies. Furthermore, this presentation is not and should not be construed as an offer or a solicitation of an offer to buy securities for sale in the India.

This presentation and the information contained herein does not constitute or form part of any offer for sale or subscription of or solicitation or invitation of any offer to buy or subscribe for any securities of the Company, nor should it or any part of it form the basis of, or be relied on in connection with, any contract or commitment whatsoever. The securities of the Company have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "Securities Act"), and may not be offered, sold or delivered within the United States or to U.S. persons absent from registration under or an applicable exemption from the registration requirements of the United States securities laws. This presentation and the information contained herein is being furnished to you solely for your information and may not be reproduced or redistributed to any other person, in whole or in part. In particular, neither the information contained in this presentation nor any copy hereof may be, directly or indirectly, taken or transmitted into or distributed in the U.S., Canada, Australia, Japan or any other jurisdiction which prohibits the same except in compliance with applicable securities laws. Any failure to comply with this restriction may constitute a violation of the United States or other national securities laws. No money, securities or other consideration is being solicited, and, if sent in response to this presentation or the information contained herein, will not be accepted.

By reviewing this presentation, you are deemed to have represented and agreed that you and any person you represent are either (a) a qualified institutional buyer (within the meaning of Regulation 144A under the Securities Act) and a qualified purchaser (within the meaning of the U.S. Investment Company Act of 1940, as amended), or (b) not a U.S. person (as defined in Regulation S under the Securities Act) and are outside of the United States and not acting for the account or benefit of a U.S. person.

Bharti Infratel – Who We Are?

- A Leading Tower Infrastructure Operator
- Pan India Presence across all 22 Telecommunications Circles
- Indus Towers – JV between Bharti Infratel, Vodafone and Aditya Birla Telecom
- Top 3 Operators – Anchor Customers & Relationships with all other Operators
- Marquee promoter and investors
Performance at a Glance

89,352 towers and 196,041 co-locations(1)
38,642 towers of Bharti Infratel and 50,710 towers from 42% stake in Indus (1)

FY16 Consolidated Revenue of US$1,861m
Q1 FY17 Consolidated Revenue of US$476m

FY16 Consolidated EBITDA of US$822m(2) and Q1 FY17 Consolidated EBITDA of US$209m
FY16 EBITDA Margin(3) of 44.2% and Q1 FY17 EBITDA Margin of 43.9%

FY16 Profit after Tax of US$339m and Q1 FY17 Profit after Tax of US$114m
FY16 Profit Margin of 18.2%(4) and Q1 FY17 Profit Margin of 23.6%

Q1 FY17 Net Cash of US$1.01bn

FY16 Consolidated Operating free cash flow(5) of US$496m and Q1 FY17 consolidated Operating free cash flow of US$142m

Exchange Rate Used for FY16: US$1 = 66.25 as on 31st March, 2016; Q1FY17: US$1 = 67.51 as on 30th June, 2016

Note: Financials for Bharti Infratel for year ending March 31, 2016 and quarter ending June 30, 2016
(1) As of June 30, 2016
(2) Includes pass through costs
(3) EBITDA for Bharti Infratel has been calculated excluding Other Income
(4) Profit margin calculated as PAT divided by Rental Revenue & pass through costs
(5) Calculated as EBITDA less Capex
(6) Based on proforma consolidated financials as per proportionate consolidation method as per IND AS

Market share in terms of installed tower base, FY15

Infratel + Indus(1) : 40.8%

Indus 31.0%
BSNL/MTNL 9.8%
RTIL 11.6%
GTL Infra 8.0%
Viom 11.3%
Others 10.1%

Market share in terms of co-locations, FY15

Infratel + Indus(1) : 48.7%

Indus, 37.1%
BSNL/MTNL 11.6%
RTIL 11.6%
GTL Infra 6.7%
Viom 14.8%
Others 8.3%

Source for Market Share: Deloitte, June 2015
Opportunities for voice growth in rural areas given rural penetration of 51.37%\(^{(1)}\)

- 3G/4G services to drive data consumption

- Given inadequate wire-line infrastructure, wireless services expected to cater to new demand

In the computation of wireless teledensity, following assumptions have been made:

A. Since only UP state teledensity was available, it was assumed to be the same between UP(E) and UP(W);
B. Since teledensity was reported for West Bengal including Kolkata, the same teledensity was assumed for both circles;
C. Since teledensity was reported for Maharashtra including Mumbai, the same teledensity was assumed for both circles;
D. Delhi includes Ghaziabad, Noida, Gurgaon and Faridabad;
E. Operator refers to wireless operators providing service as of 31 Mar 2012;
F. No. of SIMs refers to wireless subscribers.

Industry Overview
Operator Industry Dynamics

Market Concentrated in Hands of Select Players

The Indian market is dominated by the top 3 operators: BIL’s Anchor Tenants

- Bharti Airtel 32.7%
- Vodafone 23.3%
- Idea Cellular 19.2%
- TTSL 6.5%
- RCom 4.9%
- BSNL+MTNL 4.5%
- Aircel 5.7%
- Uninor 2.5%
- Others 0.7%

Anchor tenants: 75.2% RMS

Non-discriminatory nature
RoFRs from Anchor Operators
All operators are customers

Source: (1) TRAI, for the quarter ended Jun 30, 2016; Others includes Loop Mobile, Videocon, HFCL, Sistema Shyam. RCOM has not disclosed their revenues for the quarter – assumed same as 4Q16
Continuing Voice Led Growth

Growth opportunities remain in rural and semi urban voice market

Rural penetration still ~ 50% - significant headroom

Both coverage and capacity requirements to fuel tower and co-location demand

Lower ARPU’s further necessitate sharing for ensuring operational efficiency

Wireless Base continues to rise – while MOU/Sub has held steady

India: Wireless Subscriber Base\(^1\) (m)

Increasing Operator Focus on Data

An operator agnostic business model, superior network footprint and service quality standards allow Bharti Infratel to capitalize on the growth in the data market

**Operator Investment in Licenses**

- 3G/4G auctions held since 2010 led to significant investments of nearly $50bn by telecom operators.
- Most of this spectrum has been acquired for fresh data networks rollout.
- Airtel has implemented 4G data in 296 cities in India,
- Idea Cellular and Vodafone have already announced of selective 4G launches by this Financial Year end.

# Long Term Contracts with Visibility of Future Growth

### Key Features of Master Service Agreements (MSAs)

<table>
<thead>
<tr>
<th>Feature</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Tenor</strong></td>
<td>Long term (10 to 15 years) with built in escalations (2.5% p.a)</td>
</tr>
<tr>
<td><strong>Termination Penalty</strong></td>
<td>Significant exit penalties</td>
</tr>
<tr>
<td><strong>Rentals</strong></td>
<td><strong>Base Rental</strong>&lt;br&gt; - A base rental rate is applicable, based on the following factors:&lt;br&gt;  - Total number of service providers at the site&lt;br&gt;  - Ground Based Tower or Roof Top Tower</td>
</tr>
<tr>
<td></td>
<td><strong>Premium</strong>&lt;br&gt; - A variety of premiums can be levied&lt;br&gt;  - Rental premium&lt;br&gt;  - Strategic premium&lt;br&gt;  - Active infrastructure charges&lt;br&gt;  - Contract term</td>
</tr>
<tr>
<td></td>
<td><strong>Fuel Cost</strong>&lt;br&gt; - Energy costs (electricity and fuel charges) are treated as pass through in two ways:&lt;br&gt;  - As per the amounts incurred&lt;br&gt;  - Based on a rate card per circle</td>
</tr>
<tr>
<td><strong>Service Agreement</strong></td>
<td>Specifies service levels applicable&lt;br&gt;Site access service level sets out time period within which the service provider is to be provided access to the site</td>
</tr>
</tbody>
</table>

### Business Model Unique to India

<table>
<thead>
<tr>
<th>Purpose</th>
<th>Key Feature</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>Disarming The Operators</td>
<td>• It is not economically rewarding for the operators to build new towers themselves</td>
<td>No Operator in India is building towers on their own now</td>
</tr>
</tbody>
</table>
| Create Natural Entry Barrier                 | • Sliding scale of rent  
• Sharing Energy Cost                                                            | It is economically unviable to erect a new tower at a location where a tower is already present |
| Volume vs. Value                              | • By sharing minimal value gain the model has ensured huge volume of towers, virtually entirely built in the Tower Cos | • Have over 159k towers and >354k tenancies vs. having <30k towers, if there was no growth participation  
• Gives tower company a huge volume play going forward |
Demonstrated Operational and Financial Performance

Note: Constant exchange rate of US$ 1 = INR 66.25 as on 31st March 2016 has been used
(1) Revenue, EBITDA and Operating Free Cash Flow are excluding Other Income
(2) Consolidated figures for Bharti Infratel include 42% economic interest in Indus Towers
(3) Only consolidated Rental revenues considered for calculation; excludes pass through costs like energy costs and Other Income.
(4) EBITDA for Bharti Infratel has been calculated using revenue less pass through costs and excluding Other Income.
(5) Operating Free Cash Flow calculated as EBITDA – Capex; Capex is defined as the additions to the Tangible Assets during the period.

CAGR: 9.8% 14.6% 47.1%
Focus on Delivering Shareholder Value

Bharti Infratel is focused on delivering return to its shareholders through multi-pronged strategy

Pursuit of viable value accretive inorganic growth

- Bharti Infratel is focused on identifying opportunities for inorganic growth that are value accretive and feasible

Leverage Diversified Customer Base to Capitalize on Data Growth

- Bharti Infratel stands to benefit from a pick of data growth across the industry, diversification of customer base allows Bharti Infratel to benefit from data growth in the Indian telecom sector, no matter which operator achieves dominance
- Capitalize on opportunities arising out of Government Initiatives of Digital India, Smart Cities, etc.

Robust Dividend Policy - Total Payout Ratio of 203% in FY16*

- Aim to balance capital needs and distribution to shareholders
- Target payout to be higher of –
  - 100% Dividends received from Indus, or 60-80% of Bharti Infratel PAT (excluding DDT)

(1) Constant exchange rate of US$ 1 = INR 60.59 has been used;
(2) Constant exchange rate of US$1 = INR 60.09 has been used
(3) Constant exchange rate of US$1 = INR 62.5 has been used;
(4) Constant Exchange Rate of US$1 = INR 66.25 has been used
(5) Subject to adequate liquidity for planned business activities and capital expenditure and other uses including debt servicing requirements, acquisitions and ensuring an acceptable credit rating

Explore Opportunities to Return Cash to Shareholders

- Aim to increase liquidity of the stock in the market
- Aside from its payout policy, the company is considering various opportunities to return excess cash to shareholders, subject to clarifications on company law (5)
New opportunities for Telecom Infrastructure development under ‘Smart Cities’ Project

Development of Smart Cities key for ‘Digital India’ Program

- Government has already announced the creation of 100 Smart Cities

Communication backbone is key to a Smart City

- Smart City project entails setting up of telecom infrastructure which will include tower set up, micro site and fiberized backhaul
- Essentials include 100% coverage of area by cell phone towers coupled with 100Mbps backbone
- Expectations from Smart City also include wide availability of Wi-Fi, fiber optic connectivity to home, etc.
- Smart City usual business activity for Infratel, however counterparty and business model may vary from project to project

Infratel best positioned as Shared Infrastructure provider

- Infratel best positioned given its large footprint, strong balance sheet, relationship with leading mobile operators, proven skills to manage distributed operations, etc.
- Infratel led Consortium has been selected as successful bidder for setting up Intelligent Street Poles for implementing Smart City project in Bhopal, Madhya Pradesh. While this project size is not significant given our scale, it paves the way for Infratel to participate in similar bids in the future
- Continue to engage with the Government to explore all the possibilities of telecom infrastructure deployments in Smart Cities
- Shall assess opportunities and businesses that are in accordance with the Company philosophy and are value accretive

(5) Based on proforma consolidated financials as per proportionate consolidation method as per IND AS
Bharti Infratel has institutionalized ‘GreenTowers P7’ programme, aimed at minimizing dependency on diesel consumption and thereby, reducing the carbon footprint.

The ‘GreenTowers P7’ programme is based on seven innovative ideas deploying cleaner energy technologies:

1. **Solar Installations and Diesel Free Towers**
   - Close to 3,070 solar powered towers with installed capacity of over 11 MW
   - Over 33,750 (38% of the Portfolio) towers across the network are Green towers

2. **Improving Energy Efficiency of Towers**
   - Implemented hybrid battery bank solutions in towers across the country
   - Installed variable speed diesel generator (DG) sets in various sites

3. **Reduction of Power Consumption via Free Cooling Units (FCU)**
   - FCUs utilize the outside ambient air for cooling the shelter

*Note: Figures as of Mar 2016*
### Experienced Management Team

### The Cabinet Committee on Infrastructure has included “Telecommunication towers” as a infrastructure sub-sector in the master list

<table>
<thead>
<tr>
<th>Potential Benefits</th>
<th>Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>Accelerated depreciation</td>
<td>Encourages further investments in expanding the telecom infrastructure to rural areas</td>
</tr>
<tr>
<td>Higher ECB limit</td>
<td>Infrastructure status raises the limit of external commercial borrowing (ECB).</td>
</tr>
<tr>
<td>Eligible for viability gap funding (VGF)</td>
<td>Public Private Partnership (PPP) expected to infuse fresh funds</td>
</tr>
<tr>
<td>Lower import duties and certain excise exemption</td>
<td>- Levy the lowest import duties</td>
</tr>
<tr>
<td></td>
<td>- Exemption of excise duties would boost local manufacturing and thereby, reducing the cost</td>
</tr>
<tr>
<td>Lower lending rates</td>
<td>- Leads to extension in bank loan repayment period</td>
</tr>
<tr>
<td></td>
<td>- Interest rates would settle lower</td>
</tr>
<tr>
<td>Tax holiday</td>
<td>- Tax holiday under section 80IA of the Income Tax Act, 1961</td>
</tr>
<tr>
<td></td>
<td>- Tax incentives will play a significant role in attracting private sector investments.</td>
</tr>
</tbody>
